**Presented By:**

The Arizona Maternal and Child Health Workforce Summit is a pivotal hybrid event designed for maternal and child health professionals and stakeholders alike. During this event we will delve into workforce development across diverse settings, addressing critical topics such as health equity, mental health, healthcare policy and childcare accessibility for working families. We will also focus on enhancing maternal and child health outcomes through collaborative efforts and innovative strategies aimed at connecting and educating those who currently support parents and children. Join us as we share best practices and foster meaningful dialogue to advance the well-being of Arizona's mothers and children.

## **SUMMIT GOALS**

- Communicate and collaborate across maternal and child health networks
- Discuss systems barriers that prevent parents and children from receiving equitable care
- Cultivate a diverse and inclusive Maternal and Child health workforce
- Increase community awareness of pathways to maternal and child health careers
- Elevate voices from communities that have historically been underserved.
